Process Overview: QA/ Implementation

This Process describes the deployment activities. Training may be required for end users, operation teams. Depending on the size of complexity of the project, it could be a full blow implementation or Roll out may be executed by waves.
This process is performed primarily by the project team and the support team

*Note: The Project Manager oversees the overall process.*

### QA/Implementation Inputs and Outputs

<table>
<thead>
<tr>
<th><strong>Entry Criteria:</strong></th>
<th><strong>Inputs:</strong></th>
<th><strong>Participants:</strong></th>
</tr>
</thead>
</table>
| • Approved User Acceptance Test  
  • GO Approval  
  • CAB Approval | • CAB approval  
  • MTP Plan  
  • Risk /Issue Logs  
  • Project Plan | • Project Manager  
  • BA  
  • QA  
  • Operations team  
  • Subject Matter Experts  
  • Sponsor Group  
  • Security (If applicable)  
  • Change coordinator  
  • Marketing Communication and Training (If applicable)  
  • Production Support Teams |

<table>
<thead>
<tr>
<th><strong>Process Steps:</strong></th>
<th><strong>Outputs:</strong></th>
<th><strong>Exit Criteria:</strong></th>
</tr>
</thead>
</table>
| 1. Project Manager finalize the setup of services  
  2. Users or Production Support team training if necessary  
  3. Operation teams complete the rollout
